CAD/CAM Machining Methods Technician (M/F)

At CPI, we're passionate about innovation, collaboration and excellence. We're constantly on the lookout for exceptional talent to join our team.

If you're looking for a stimulating work environment, focused on professional growth and where your contribution really makes a difference, then we're the company for you!

We firmly believe that our employees are our most valuable asset. That's why we invest in their development, offering them training opportunities, as well as an inclusive and diverse work environment where everyone can flourish. Our corporate culture fosters creativity, initiative and collaboration, because we know that the brightest ideas are born of exchange and diversity of perspective !

We are currently looking for a CAD/CAM Machining Methods Technician (M/F) on a permanent contract (Luxembourg).

In this challenging role, you will be the link between our customer and end-users, working closely with a team of highly qualified professionals, in an environment where innovation is encouraged and fresh ideas are welcome !
